17 July 2014

Dear President,

We are very happy if you generously accept us, two faculties and twelve students, when we visit Maejo University this September.

Currently we are planning to visit your campus on 9th to 10th September, 2014.

Attached is the itinerary of this program.

We are always deeply grateful for your generous support to our program in the past.

We are going to implement one of our study abroad programs, "Farm Stay for International Cooperation in Thailand (21st Century Farm)," this September, as we did in the past several years, since 1999. Upon this, we should like to show your university, one of the most prestigious universities in Thailand, to our students.

Then we want to ask you a special favor. We are sorry to impose on you when you're so busy, but we very much appreciate if you grant the following three things.

1. Would you please provide us accommodation for us on the night of 9th to 10th September, 2014?
2. Would you please accept our courtesy visit to you on 10th September. ?
3. Would you please allow us to make some campus studies while staying there?

We think cultural exchange is very beneficial for both sides of students, that is why we attach importance to this program.

We thank you again for your kind assistance extended to us.

We sincerely hope to see our relationship expand as well.

Yours sincerely,

17 July 2014

Dear Dean,

Thank you for your generously acceptance us, as our study abroad programs, "Farm Stay for International Cooperation in Thailand (21st Century Farm)," from 1999. We are always deeply grateful for your kind support to our program in the past.

Currently we are also planning to stay in Thailand from 3rd to 12th September and visit your campus on 9th to 10th September, 2014. This program is supported by Faculty of Agriculture of Kagoshima University. I wish to send a formal letter from dean of Faculty of Agriculture of Kagoshima University.

I look forward to receiving your reply and hope that We are not causing you too much trouble.

Yours sincerely,

Katsuo Tsuda
