"I have seen I out of my mother's womb, and
what shall I return? Because the Lord gave, and He hath
taken away."

The quotation is from Job 1:21, which means that
"We came into the world without anything with
us and we shall go away without anything as well. What
shall we do then? Yes,.....we should do our best to
help other people in need and make the best use of our
life for themselves."

Figure 1 consists of two bar charts. The left chart is titled 'All respondents' and the right chart is titled 'Respondents who have been to a protest in the last 12 months'. Both charts show the percentage of respondents for four levels of agreement with the statement 'The government should do more to protect the environment'. The y-axis represents the percentage, ranging from 0 to 100. The x-axis represents the level of agreement: Strongly agree, Somewhat agree, Somewhat disagree, and Strongly disagree.

Level of Agreement	All respondents (%)	Respondents who have been to a protest in the last 12 months (%)
Strongly agree	~45	~55
Somewhat agree	~35	~30
Somewhat disagree	~15	~10
Strongly disagree	~5	~5

The FET or Future Farmers of Thailand is an organization of, by, and for boys studying vocational agriculture in agricultural schools. It is designed to make vocational agriculture in structure more worth while. It functions for making possible in vocational agriculture.

The philosophy and some of the purposes and activities were adopted from the Future Farmers Organization of America (FFO) and of the Philippines (FFP).

Some and purposes
 In vocational agriculture learning by doing is emphasized. The FET teaches the organization for learning by doing in such activities as: meeting and taking part in public meetings, speaking in public, and assuming civic responsibilities. It provides learning by doing activities in bookkeeping, character development, sportsmanship, cooperation, service, thrift, scholarship, citizenship, citizenship and patriotism. The FET emphasizes vocational activities that are adapted to farm or rural living, to provide opportunities for a member to develop the skills necessary for the professional activities in which he may engage. The FET encourages improvement in scholarship by emphasizing cooperation among the people so that they can all obtain greater achievement.

The idea of thrift is encouraged in the FET. Participation in cooperative effort is encouraged. The cooperative activities of the FET, chapters give a member an opportunity to learn how to cooperate with others. The whole program in FET is geared to develop character, train for useful citizenship and foster patriotism. A very important purpose of the FET is to create and secure a love of country life and to develop competent aggressive mind and agricultural leadership. Considerable emphasis in the FET is placed on the development of individual learning progress and the establishment of high in learning. The FET encourages its members to participate in worthy undertakings for the improvement of agriculture.

The MAHOM FET chapter was organized in the Chulalongkorn Agricultural College on July 1, 1951 as a pilot chapter. Student officers were elected and organization constitution and by laws was adopted at that time.

The first student officers are as follows

1951 - 1952				1952 - 1953			
President	-	Sewery Engstrom	1	President	-	Sewery Engstrom	1
Vice president	-	Perceval Northcutt	2	Vice President	-	Perceval Northcutt	2

Reporter	-	Sign Engstrom	5	Reporter	-	Sign Engstrom	6
Reporter	-	Perceval Northcutt	6	Reporter	-	Perceval Northcutt	7

The chapter is now having 31 chapters members. Of course, it is still in an experimental stage. We are looking forward that one day in the near future, our FET will become a national organization.

"The successful future of tomorrow is the future of today."

By laws, there are four types of active degree membership

1. The Green Head degree.
2. The Chapter Farmer degree.
3. The Regional Farmer degree.
4. The National Farmer degree.

The Green Head members are recognized as the youngest members of the Future Farmer in each local chapter. Advancement to each of these degrees is based on individual accomplishment.

The national F.F.T. organization has provided the following minimum qualifications for the Green Head degree.

1. Any male student who is studying in the agricultural schools and has satisfactorily and acceptably done for a program of supervised farming.
2. He familiar with the objects and purposes of the F.F.T. and the program of work of the local chapter.
3. He able to make the Good of the Future Farmer of Thailand.
4. Receive a majority vote of the members present at a special meeting of a local chapter including Green Heads.

Any applicant who has the specific qualifications mentioned above, is entitled to become a member of the Green Head. The most important qualification of each member is to have his own member production project. Any applicant should intend to run his business successfully. Each project should be conducted for a complete production cycle. For advancement to a higher degree, a member must have satisfactorily completed the fundamental parts of the work for the first year on the ladder. The prospective member should always keep in mind that the program having a smallholder production project during this time, is to help each member to grow toward becoming established in farming. Because the Future Farmer of today is the successful farmer of tomorrow. He will be a good leader in the community. Please attention to the Chapter Farmer degree which is waiting for all of the Green Heads.

ENGLISH CLUB

The objectives of the English Club

1. To serve its members practicing English speaking, listening etc.
2. To develop competent leadership.
3. To give its members a chance to study Western customs, social conduct, parties, games etc.
4. To strengthen the confidence of both boys and young men in themselves and their work.
5. To encourage improvement in scholarship.
6. To participate in cooperative efforts.
7. To develop desirable character in group activities.

The above objectives are among those that I think most likely to fit in what we want our club to serve. There are many more ideas that an English club can do for its members. To state that just I like to present these rules for the club is slight.

1. All members should speak only in English when they attend.
2. Time should be taken for its members to express their thoughts and opinions.
3. The club members should have thorough understanding of our objectives and should come to every meeting.
4. Preparing the program one week in advance.
5. The officers should set the example by using English in talking at least during before time and encourage members to do so.

A TRIP TO MAE KLANG

Mae Klang is a famous waterfall in Chiangmai. It is one of the most beautiful
waterfall in Thailand. Mae Klang is in Chiangmai, a small town about 10 kilometers
from Chiangmai. The waterfall is visited by thousands of tourists each year especially
during summer time.

The winter class of 1962 will remember that one day we took a trip to Mae
Klang by chartered bus. We left Maeio early in the morning and went directly to
the waterfall. We were fascinated by the beautiful scenery of Mae Klang. All of us
enjoyed the trip very much.

On the way back, we visited Sangprong Rice Experiment Station. We learned
more about recent development on rice research. We were glad to know that Head
of the station as well as most of the technicians are our Maeio graduates.

THE DAY TO CHONGYIN

Chi-Pei is the name of a mountain peak Chinggang people know relatively well. Its height from sea level is approximately 1000 meters. There are wide varieties of wild weather plants on this mountain peak. There are very convenient for human and mule.

It is necessary for the third year students to take the excursion to this peak before they are graduated from Chinggang College of Agriculture. This year it was rather late to plan the trip on 21 December 1961. Anyhow we found that we arranged the trip very much. The weather is relatively ideal, not too hot and not too cold.

We took a truck and drove to Chi-Pei on Dec. 21, 1961 and spent a night there. Next morning we waited for our breakfast while some staff members would bring us on. At 8:00 am, the staff members came up by a pick up. They were Arthur Shiao Yau Tsang, Arthur Shiao Chingchen, Arthur Kuan Shichang, Arthur Hsu Shuennann and Mr. Richard Shuennan.

The night we spent at Paoan Chi-Pei was one of our experiences. We could never forget it. All around us the nature displayed its many life, the gentle breeze, the singing birds, the fragrance, moss grass, vegetables and various grass. In contact with this nature surrounding us looked down to city life in sight of Chinggang. We saw the street lights and the moving, twinkling lights of moving vehicles. We did not hear any noise from the city but we could hear its imagination, how noisy the city must be.

At 8:00 am, some of the students were ready to go up to Chi-Pei. Mr. Richard Shuennan chose to go on foot with the students. They had had great long going together. The staff members went up on their land-crover pick up. We arrived at the peak at 10:00 am, and had our lunch. On the way to Chi-Pei we passed Pi-Ping Kuanmen, the great northern gate. Some of our friends had seen it on the first time. Many were busy playing wild animals from near by trees while others passed to look down to the surrounding scenery on the plain. Many could get sight of our school campus and adjacent station. Our school was as little as a moth but but as large it had the area of one that one. We were in a mountain with village of Shiao people. There we saw clearly for the first time how they live.

Mountains and forest passed by quickly as did our experience. When we descended to walk back to the city which is some twenty kilometers down hill many had a heavy burden of articles and other things experiences.

Mr. Richard and I walk down till till we got to Hsueh-Kuan waterfall. We took a rest here for an hour and caught a taxi to Chinggang and got home to our school. We got back school at 3:00 pm.

I would like to thank Mr. Richard Shuennan for his many photographs of the scene. Thanks very much for our Year Book.

S. Changping
